

I hate it when you do

I said "no thanks" to you

You asked me if I was okay

What if I wasn't

Leaving is fine

It's just I don't wanna be all by myself again

Like every time, like every last time

You knew that I was no good for you

When we lay down after doing that things
you loved

You knew that I wasn't better than you

I hope that I could be seemed really fine with
you leaving

You stroked me and stared at me

I like it when you do

I said "I know you love me, too"

I asked you

"If you are the same, what if I quit it"

Leaving is fine

It's just I don't wanna be falling behind again

Like every time, like every moment in the end

You knew that I was no good for you

When we lay down after doing that things
you loved

You knew that I wasn't better than you

I hope that I could be seemed really fine with
you leaving
