With you I'd float everywhere with you I'd ...

I play my songs with you
It's ordinary to us
Don't care what
would people want from me
Just record now this time to
remember this feelings with you
You took care of me
with your special cure
Don't mind if it costs a lot of my heart
From my finger to ear,
I feel the warm from you
Wanna tell this moment for you
This love could make me blue,
but I know we'll be together,
now or forever,
With you I'd float everywhere,

with you I'd.. 접기
