We weren't welcomed there

They all want us out

Do we really have the reason or

Should we just go

We won't stay around here no more

But if you would need us to help

You with our love,

We are glad to be with you

We only

(Want a little sympathy and hopes)

Know how to be loved

We were only

(Small amount of poison, but not in your blood)

Taught by great great love

Yes we are

Sing along with me
